5	Thursday, November 21, 2024	**We finish, just to begin** ● Recapitulation of the topics covered. ● Guidelines for the final project.	You will reflect on the topics covered in the course, together with the completion of the transformative project and the peer evaluation

Evaluation and certification

The course includes formative assessments and a final assessment.

Each week includes an **automated formative assessment**. This means that once answered, you will immediately know the result and with the correct answers justified so that they serve as feedback in your learning.

The final evaluation has two components: the design of a **project** and a **peer evaluation**. **Both activities are mandatory for those who wish to obtain the certification of the course:**

Final project	Using the learning achieved in the course, you design a concrete action that generates a significant change in the community where you live, thus generating a positive impact on the lives of those around you. To reach the final project, each week you will have the opportunity to make a formative progress.
Co-evaluation	Is the process in which you must evaluate two projects from your classmates that you will receive randomly, completing an evaluation guideline (rubric) that we will also send you in a timely manner.

You will find all the details of orientations, instructions, deadlines, guidelines and spaces for consultations in the corresponding week.

Regarding the **certification**, it is contemplated that the respective document be jointly endorsed by the institutions that collaborated for the development and production of the course. Consequently, the approval will be co-certified by the following entities:
- Universidad Abierta of Recoleta
- MIJENTE
